WORK EXPERIENCE

Workshop

Omaha, NE

Software Engineer – Internship

May 2026 – Present

- Built and launched Cici's Comms Planner, turning raw files and user input into long-range planned content.
- Equipped Cici with tools to create, edit, delete, restore, and turn planned content directly into email drafts.
- Delivered production Rails, Vue, and JavaScript features on a platform sending nearly one million emails daily.

Union Pacific

Omaha, NE

Year-Round Tech Intern – Internship

September 2025 – May 2026

- Built company-wide deployment systems that delivered critical applications across Union Pacific.
- Packaged and released software updates directly to employees through reliable, repeatable deployments.
- Reviewed software portfolios and drove upgrade, retirement, and ownership decisions across applications.

Catholic Mutual of Omaha

Omaha, NE

Software Engineer – Internship

May 2025 – March 2026

- Built and maintained internal web apps that accelerated insurance claims and cut manual work.
- Diagnosed defects and shipped secure features alongside cross-functional engineering and business teams.

LEADERSHIP AND PROJECTS

Nullify – Cybersecurity club at UNO

Lynx Software Solutions

Omaha, NE

Freelancer

January 2026 – Present

- Designed and launched production websites for two Omaha businesses, owning each build from requirements through deployment.
- Built customer-ready service pages, quote paths, and contact flows around how each client attracts new business.

Project Management Software

- Built a secure construction-management web app with user accounts, enabling teams to manage projects, tasks, images, AI-generated estimates, and other workflow tools in one platform.

CERTIFICATIONS

Google Cybersecurity

Student

August 2024 – November 2024
